Re: Ed Kearns question;

Maybe I just need to clarify a point. All our expenses here with the convention center (including catering) is in Brazilian Reais (BRL). Windsor and the other companies have sent me their quotations in BRL. That's why it looks low when converted in USD. The exchange rate works in our favor. When I travel to the US or Europe and have my expenses in USD or Euro it is heavy on me but when colleagues from the US or Europe come to Brazil they get more for their USD or EUR than would get back home.

Best regards

Hélio

Here is the exchange rate graph to USA \$

1 Brazilian Real equals

# 0.19 United States Dollar

May 11, 10:48 PM UTC · Disclaimer

1	Brazilian Real ▼
0.19	United States Dollar ▼
